

JBL ONBEAT XTREME™

High-performance loudspeaker dock for iOS devices with *Bluetooth*® wireless technology

The JBL OnBeat Xtreme™ is among the most versatile, capable and powerful loudspeaker docks JBL engineering has ever produced. It's a complete high-performance audio system that docks with most Apple iOS devices – including iPad tablets – and pairs with virtually any *Bluetooth*®-enabled computer or smartphone for high-quality wireless playback of your music library, Internet radio streaming or speakerphone functionality. An ingenious rotating connector firmly docks your iPad, iPod or iPhone device, and lets you position iPad, iPod and iPhone screens in portrait or landscape orientation for the best video display. The JBL OnBeat Xtreme features JBL Ridge tweeters and JBL Atlas™ woofers with computer-optimized DSP equalization, which create a dynamic, lifelike 360-degree soundstage. An RF remote puts you in full control of system functions and music navigation from anywhere in even large rooms, and an AC power supply keeps your iOS devices charged when docked. With an optional composite video cable, the JBL OnBeat Xtreme can even send video content to your TV for the whole crowd to enjoy together. The JBL OnBeat Xtreme does it all, and does it with the industry-leading performance you expect of JBL products.
